CAREER OBJECTIVE

As a computer science graduate, I am eager to start my career as a software engineer. I aim to apply my technical skills and learn from real-world experiences to contribute effectively. My goal is to build a strong foundation and grow within a reputable organization.

PROJECTS

- **HTML,CSS (https://pylahaneesha.github.io/htmlwebsite/)**

  Developed a static, responsive food website using HTML, CSS, and Bootstrap to display recipes, blogs, and cooking tips. Ensured a smooth and user-friendly experience with responsive design across all devices.

- **TRACING OF COUNTERFEIT MEDICAL DRUG USING BLOCKCHAIN TECHNOLOGY**

  Our project is to identify fake medical drug by using block chain technology. Based on medical drug details entered by manufacturer, we have 2 ways of generating a QR code with and without internet. By doing this project we want to reduce fake drugs which is harmful to society.

INTERNSHIPS

- **AI-ML Internship**

  This Virtual Internship, powered by AICTE, Focuses on the fundamentals of AI and ML. Supported by AWS Academy, it offers hands-on experience and practical knowledge. Enhance your skills and build a strong foundation in these transformative technologies
